

## Charter

The objective of the Accueil International de Saint-Germain-en-Laye et de sa Région is to help newcomers settle in by promoting interaction and friendship between the various nationalities via the numerous activities organised by almost a hundred volunteer members.

Our organisation can only function smoothly if every member is willing to take an active role in the life of the association, by sharing their skills, their experiences, and by giving a little of their time. In this way, all members can help provide the support and welcome for new members that they themselves enjoyed when they first joined.

The Accueil International is a non-profit association. It cannot allow members to promote any commercial activities within the association.

The activities organised by the Accueil are for members who have paid their annual subscription fee.
